

Project Title

Smart City Complaint Analysis Dashboard

Dataset Summary

Total Records: 2000

Complaint Categories:

Garbage Collection

Water Supply

Road Damage

Street Light Failure

Traffic Congestion

Drainage Problem

Public Safety

Zones: Central, North, South, East, West, Northeast, Southwest.

Key KPIs:

Total Complaints

Resolved Complaints

Resolution Rate

Average Resolution Time

High Priority Complaints

Citizen Satisfaction Score

Complaint Hotspot Zones

Department Performance Score

Key Findings:

Road Damage, Water Supply, and Garbage Collection complaints occur frequently.

North Zone and South Zone show recurring civic issues.

Public Works Department takes longer to resolve complaints due to road repair activities.

High resolution delays reduce citizen satisfaction.

High-priority complaints need faster action.

Recommendations:

Increase road maintenance activities.

Improve water supply monitoring.

Allocate more staff to overloaded departments.

Prioritize high-severity complaints.

Monitor hotspot zones regularly through dashboards.

Business Questions & Answers

1. Which complaint categories occur most frequently?

Road Damage, Water Supply, and Garbage Collection complaints occur most frequently in the dataset.

2. Which areas experience recurring civic problems?

North Zone, South Zone, and Central Zone show repeated complaints across multiple categories, indicating recurring civic issues.

3. Which departments take the longest to resolve complaints?

Public Works Department generally takes the longest time because road damage repairs require more resources and field work. Examples include complaints taking 26–36 days to resolve.

4. What factors reduce citizen satisfaction?

Long resolution delays

Pending complaints

Repeated infrastructure issues

Slow response to high-priority complaints

Low satisfaction scores are commonly associated with longer resolution times.

5. What actions should city authorities prioritize?

Fix road damage complaints quickly

Improve water supply services

Reduce complaint resolution time

Focus on hotspot zones

Strengthen department performance monitoring

These actions can improve citizen satisfaction and overall city service quality.
